

Certification of Persons on Science and Technology Conformed to ISO/IEC 17024

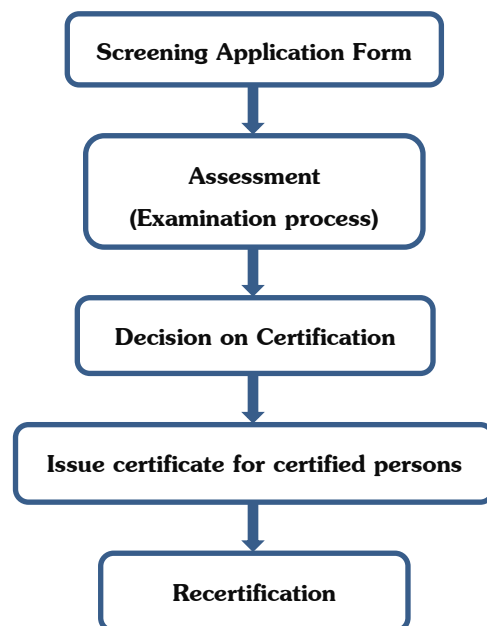

Bureau of Laboratory Personnel Development (BLPD)
Department of Science Service (DSS)
Ministry of Science and Technology, THAILAND

“Get Confidence and Credence; Get Your Competence Certified”

ISO/IEC 17024 is the International Standard for bodies operating certification of persons, a mean of providing assurance of certified person. The certification scheme should be designed according to demand driven from public services, market need, official or governmental concerns. A certification body for persons shall set up assessment process and methods to indicate certified persons' for domestic and international confidence and acceptance. Moreover, it is the main approach for capacity building on Science and Technology.

Overview the Certification Process

Bureau of Laboratory Personnel Development, Department of Science Service, Ministry of Science and Technology, the pioneer of Certification Body for Persons on Science and Technology in Thailand. Our initiative **certification scheme on “Control and Management of Chemicals in Laboratories”** is currently in service and the new scheme will be developing continuously.

Certified Person Benefit : The competence is confident and acceptable lead to go forward for the profession/career.
